

AASF Fall Safety Seminar

Come and join us in trying a new format for learning about aviation safety. You will have the opportunity to participate in "What If" emergency scenarios using electronic devices to indicate how you would react. These devices will enable audience participation and are completely confidential. We will also have guest speakers who will share their real life experiences so we can learn what they did right. This event promises to be interesting, motivating and meaningful – don't miss it!

Registration at 0800 Seminar Starts at 0830
UAA Aviation Fraternity will provide on site lunch for a small charge.

Directions: The UAA Aviation Complex is the largest building on Merrill Field and is located at the east end of the airport. This seminar will be held in the first floor auditorium. Look for informational signs inside the main entrance.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
